Dear Jeevanaa Suresh Babu,

My name is Fabian Schneider, and I am part of the IAAC evaluation team responsible for reviewing submissions from participants worldwide.

I am reaching out to you personally because your submission for the Qualification Round stood out, not only in terms of the solutions but especially in the professionalism and formatting of your document. We believe that you used the TeX typesetting program or a similar tool to digitally prepare and format your submission. This demonstrates a high level of professionalism, as LaTeX is an important tool in scientific research and academic writing.

Our team, including myself, was impressed by your well-written submission, and we are glad to have you as part of IAAC 2025. It is always inspiring to see participants who go far beyond expectations, and your submission reflects the qualities we aim to promote through IAAC.

We are also considering publishing a selection of the most exceptional submissions from the Qualification Round 2025 on our website to present the outstanding work of participants. Your submission is among those we are considering. If you would be comfortable with us sharing your work on our website, please let us know. We will then decide which ones we share. If you prefer not to have your submission published, we completely understand.

I am excited about your academic future and hope to see you in the Pre-Final Round.

Best regards,
Fabian Schneider
